

# FIVE STAR MINI-STREAMLINES

**Five Star Mini-Streamline ablution buildings feature a 2x1.5m overall foot print with two fully self contained toilet cubicles both with hand basins.**

These units can be re-configured by reversible signage in any gender combination that you require.

Some of the unique features of these units are,

- Sewer connect or self contained operation
- 1500 litre waste tank integrated into the floor of the unit
- Vitreous china toilet suites
- Interior and exterior lighting
- One step easy access into the building
