

FIVE STAR PORTABLE SRO

(Standing Room Only - Mens Urinals)

Instant Toilets Standing Room Only (SRO) is a portable mens only urinal building designed to alleviate queues from conventional toilet facilities. Standing room only features 6 urinal positions in a trough style format.

Standing Room Only units are suited to high volume use. Each Standing Room Only has a total waste capacity of 530 litres which equates to approximately 1200 uses.

Standing Room Only units feature the latest in biological technology along with our waterless urinals.

The Standing Room Only waterless urinal system is an environmentally friendly and responsible approach to sanitation.

Placement of portable sanitation equipment is important for its serviceability for both your patrons and our service team. Instant Toilets can advise you as the correct number of units required to meet Health Department regulations along with a suggested placement of the units for the comfort of your patrons.

CLEANING & SERVICING

Instant Toilets can provide servicing staff for the duration of your function or event to ensure a high quality of sanitation is maintained. Servicing of the units (waste removal) can also be scheduled at regular intervals to ensure maximum performance of our units.
