POLYJOHN PORTABLE TOILETS & SHOWERS RANGE

PORTABLE TOILETS

POLYJOHN FLEET - FRESH WATER FLUSH PORTABLE TOILET

The PolyJohn Fleet Series sets the standard for high quality portable restrooms. As a self-contained chemical toilet this unit can be located virtually anywhere. Sleek exterior and interior styling make this unit the perfect choice for any environment where appearance and style is a factor. The Fleet series toilets also boast more room than similar units on the market, approximately 24% more room.

POLYJOHN FLEET SEWER CONNECT PORTABLE TOILET

The PolyJohn Fleet Series sewer connect toilet provides a mains connected toilet in a portable format. Providing the facilities similar to that found in any permanent setup often pleases many customers. The Fleet Sewer connect features a vitreous china toilet suite and hand basin internally. This unit requires connection to mains pressure water and a sewer point to operate.

POLYJOHN PNJ3 FRESH WATER FLUSH PORTABLE TOILET

The traditional workhorse of the portable toilet industry which has greater capacity than its predecessor, easy to clean and an overall increase in strength and durability. The door opening has been increased in height and a heat treated aluminium doorjamb for strength and rigidity. The toilet flushing system is operated via a foot pump recessed into the tank.

POLYJOHN ADA - DISABLED ACCESSIBLE PORTABLE TOILET

The PolyJohn ADA (Disabled accessible) portable toilet is architecturally certified as complying with ADA requirements. A Hexagonal floor at ground level with no step allows for easy wheel chair access in and out of the unit. Support Bars are included inside the toilet for both visually and physically impaired persons. The space inside provides sufficient room for a wheel chair to turn 360 degrees. There is also the ability to install a baby change facility if required.

POLYJOHN COMFORT INN - DISABLED ACCESSIBLE TOILET

Designed for easy access with its 1/2" thick floor which is at ground level made from a strong durable Roto-moulded foundation. The space inside provides sufficient room for a wheel chair. The unit provides easy access for patrons with an oversized door opening and spacious interior. Three grab bars are mounted on the inside walls to ease mobility for the user. This unit comes with a self-contained hand washing station which is either hand or foot pump operated.

POLYJOHN PORTABLE TOILETS & SHOWERS RANGE

POLYJOHN PORTABLE SHOWERS

POLYJOHN FLEET PORTABLE SHOWER

The Polyjohn Fleet shower cabin (shell only) offers you a spacious portable shower with a grated floor for excellent drainage which is connected to a 2" drain port on the rear of the unit. Internally the unit features a chrome curtain rod and curtain, coat hooks and mirror to the rear of the door. Pre-fitted with a hand-shower rose, cold and hot water taps the unit is ready for connection to an external hot water unit (optional). We can provide electric storage, electric instant or gas instant hot water units complete to accompany the unit for a complete setup if required."

POLYJOHN HANDWASHING STATIONS

POLYJOHN APPLAUSE - HANDWASHING STATION

This unique hands-free twin sink design converts easily to a four-sink island by placing two units back to back. Large sink bowls, rubbish bag holders and a service tower with two paper towel dispensers and a single soap dispenser enhance this user friendly design. The entire top of the unit is hinged and opens to gain access to the Flexible inner grey-water tank bag and fresh water storage area for re-filling.

POLYJOHN BRAVO - HANDWASHING STATION

The Polyjohn Bravo hand washing station has two large sink basins for washing hands and arms up to the elbow. This unit will fit inside most portable toilets for easy transport.

POLYJOHN FOUR PERSON HAND WASHING STATION

The Polyjohn Four person hand washing station is a compact multi user sink system with hands free foot pump operation. This unit is compact and easy to handle and can be fitted into small areas.

POLYJOHN SANI-STAND

The Sani-Stand is a free-standing hand sanitizing unit with four dispensers on it. The Sani-Stand provides enough foam to sanitize the hands of over 5,300 individuals. Foam spreads to cover hands and kill germs effectively with a 99% success rate, with E-coli and salmonella being eradicated. This unit is great for agriculture, construction sites, food places, festivals and schools.

POLYJOHN SINK ON WHEELS

The Polyjohn Sink on Wheels is an easily transportable sink with built in handles and lightweight rubber tread wheels. Fitted with a soap and towel dispenser along with an easy to operate foot pump it dispenses up to 1024 single splashes of fresh water.
