*instant* **Toilets & Showers**  
*2013*

Instant Toilets & Showers are a leading manufacturer and hire company providing a complete range of portable sanitation products, including our unrivalled Five Star Portable Toilets and Showers. Scott Rawson founded the company in 2005 as he saw the need to provide better-designed products for all industries with a higher level of cleanliness and service. Since its inception, Instant Toilets & Showers has successfully supplied thousands of customers and events with its unique products.

## **INSTANT TOILETS & SHOWERS PROVIDE ONSITE CLEANING AND WASTE REMOVAL SERVICES FOR BOTH IT'S OWN FLEET AND ALSO TOILETS OWNED BY ITS CUSTOMERS.**

*Our fleet of portable sanitation products is constantly expanding making us one of the Australia's leading suppliers of portable sanitation facilities for every kind of situation.*

## WHAT WE DO

**Instant Toilets & Showers is a leader in the portable sanitation industry.**

- We design & manufacture portable sanitation products
- Hire & Sell portable sanitation products
- Provide full logistics by successfully planning for our products delivery, setup and servicing in any situation
- Manage Onsite waste removal for all portable sanitation products
- Provide Onsite cleaning & attendant services for any situation
- Carry out In-house maintenance of our products

## HOW WE DO IT

Instant Toilets & Showers major strength is our integrated approach to the portable sanitation industry. We offer design, manufacture, hire, sales, transport and servicing under one roof so that everything can happen seamlessly.

We operate our own fleet of transport and service vehicles to ensure we can respond to our customer's needs 24x7 if required. We also operate our own effluent disposal facility, which ensures our waste removal vehicles can respond in emergencies if required and also allows us to provide our services at very competitive rates. Being self-sufficient is one of the key factors to our success.

# ENVIRONMENTALLY RESPONSIBLE

**Instant Toilets & Showers is an environmentally responsible company**

Since the inception of the company we have spent countless hours researching and sourcing products that are environmentally friendly alternatives to common chemicals.

## SOLAR POWERED TECHNOLOGY

Instant Toilets & Showers is excited to announce the roll-out of solar powered technology into our fleet of transportable toilets and ablutions. Through six months of successful research, design and testing our new Solar Powered transportable units have proven to be a great success with our customers.

State of the art LED lighting both internally and externally has been used on our newest range of Five Star Executive toilets which are exclusively solar powered. These new units can be programmed to switch their lighting on automatically anytime of the day or night or by using inbuilt day/night sensors. Fail-safe systems have also been built in to our units to ensure that they can be run from mains power in the event of any issues onsite.

### ADVANTAGES

- Equipment can now be located virtually anywhere
- No need for expensive generators to be hired/maintained
- Cost saving from Generator Hire/Electrician's fees
- No mains power cabling to be installed
- Reduction in energy usage, lowering your carbon foot print

Instant Toilets & Showers has committed to roll out solar powered technology to all existing and new assets within the hire fleet as quickly as possible.

## SAVING WATER & THE ENVIRONMENT

Water wastage is an issue which we identified some time ago in our business. We have since developed unique products which reduce water usage and minimize water wastage.

### Reduced water usage in our toilets results in:

- Less waste generated
- Lower water usage charges
- Less energy used to process waste
- Lower waste disposal charges
- Saving you money

## WASTE TREATMENT

The generation of waste from our products and the effective treatment of this is one of our main priorities. We wish to ensure that at all times we can ensure waste is treated in a responsible manner.

To ensure this we have chosen to use an enzyme based waste treatment solution in our toilets. As well as being environmentally friendly, this product has proven extremely successful in controlling odour in our portable toilets even on extremely hot days which is where other more dangerous chemicals fail.

By using this environmentally friendly product in our units should there ever be a waste dispersal onsite either by accident or vandalism, we can ensure that the impact is minimal and non-hazardous.

# Midnight Velvet Six Star VIP Toilet

These new architecturally designed Six Star VIP toilets provide the ultimate in luxury and have set a new standard for facilities in Australia. ## SIX STAR VIP CHEMICAL TOILET

Instant Toilets & Showers new Six Star VIP chemical toilets feature a distinctive look that oozes style and quality. These toilets have such outstanding features and quality that we felt they deserved Six Stars. Providing portable sanitation facilities that can meet or exceed the expectations of today's guests is easy with these high quality toilets.

Our new fleet of Six Star VIP chemical toilets are fitted with outstanding features:

- Hands-free flushing
- Hands-free hand washing (for the hygiene conscious guest)
- Stainless steel toilet bowl
- Interior lighting
- 4 roll toilet paper dispenser
- Hand towel dispenser
- Integrated waste bin
- Coat Hook & Bag rack
- Large vanity mirror

**Your Six Star VIP chemical toilet will also come stocked ready for use with our:**

- Spray hand soap dispenser
- Odour control unit
- Toilet seat sanitizer
- Hand towels
- Toilet paper (4 rolls)

**NEW** - LED super-bright lighting internally

## FIVE STAR PORTABLE TOILETS

Our Five Star range of luxury portable toilets have additional features that other companies don't provide to ensure total satisfaction for the user. These additional features to our portable toilets include,

- Spray hand soap dispensers
- Toilet seat sanitiser
- Odour control
- Interior Lighting (optional)

We also provide Five Star Portable toilet hire for building sites - designed to withstand the rigors of the worksite, they provide the little extra luxury your staff deserve.

### FIVE STAR EVENT/FUNCTION TOILETS

Our new Five Star Event/Function toilets are designed for high volume use with comfort in mind. Ideally suited for most functions and events these toilets feature modern, sleek styling both inside and out. All units now feature a mens urinal inside.

### FIVE STAR MOBILE FUNCTION TOILETS

Five Star Mobile Function toilets are the perfect choice for

- Parties
- Corporate functions
- Small events
- Weddings & Engagements

These mobile toilet units are easy to tow and transport solving the access problems of normal portable toilet units which need to be delivered by crane trucks. They can be manoeuvred into tight locations with ease.

### FIVE STAR DISABLED ACCESSIBLE TOILETS

Five Star Disabled accessible toilets will ensure guests with special needs are catered for at all times. Our Five Star Disabled Accessible units offer all the facilities of our Five Star portable toilets whilst giving wheel chair users enough space to enter the unit and manoeuvre around with ease.

### FIVE STAR SITE TOILETS

Five Star site toilets are designed to withstand the heavy demand of any type of work site. Despite their name these units are inexpensive and suitable for the harshest of conditions. Site toilets are available as chemical toilets or sewer connected units.

### FIVE STAR DUO MOBILE TOILET

Providing the same functions as our popular Five Star Mobile toilets but with two event quality toilets in the one mobile unit. Compact and easy to tow. Providing great cost savings for events/function in remote locations.

# FIVE STAR PORTABLE SHOWERS

Our Five Star range of portable showers are unique to Instant Toilets & Showers. We have designed and manufactured each of our mobile shower products for specific applications where temporary shower facilities are required.

We believe that we have the largest range of portable shower products of any company in Australia. All of our Five Star portable showers are designed to be self contained and require minimal setup for quick and easy installation.

## FIVE STAR MOBILE SHOWERS

Five Star Mobile shower units are designed to provide temporary, mobile shower facilities at an affordable price. Mobile shower units are easy to tow and they can be manoeuvred into tight locations with ease.

Five Star Mobile shower units are ideal for

- Home renovations
- Sporting Events
- Construction / Work sites
- Emergency situations

## FIVE STAR QUAD/SIX BAY SHOWERS

Five Star Quad/Six bay shower units are designed to provide temporary shower facilities for high demand use. Five Star Quad/Six bay shower units provide four (4) or six (6) separate unisex shower cubicles with interchangeable signage for Male/Female use. A continual supply of hot water is provided to each shower through an LPG Gas Instant high volume hot water service.

## FIVE STAR SUPER SIX SHOWERS

Five Star Super Six Showers are designed to provide quality showering facilities all within the one easily transportable unit. A high capacity hot water unit and integrated waste storage tank makes this a truly portable unit that can be delivered or setup anywhere in Australia. This Five Star Super Six Shower building has been designed in a Male/Female format which is re-configurable through our unique lockable dividing door panel between both sections of the building.

## FIVE STAR SUPER TWELVE SHOWERS

Five Star Super Twelve shower units are the ultimate in temporary shower facilities. Five Star Super Twelve showers provide twelve (12) separate shower cubicles with interchangeable signage for Male/Female use. Powered by two LPG gas Instant high volume hot water units our Super Twelve showers will handle thousands of people per day with ease.

## FIVE STAR PORTABLE HAND WASHING

Our Five Star Portable Hand Washing stations allow you to provide hand washing facilities in areas where there is no water available. Portable Hand washing stations are self contained and require no water or sewer connections to operate.

These units are ideal for

- Events where food and beverages are being served
- Food & Catering vendors (to meet health dept requirements)
- VIP events

### FIVE STAR SANI-STAND

The Five Star Sani-Stand is a free-standing hand sanitizing unit with four dispensers on it. The Sani-Stand provides enough foam to sanitize the hands of over 5,300 individuals. Foam spreads to cover hands and kill germs effectively with a 99% success rate, with E-coli and salmonella being eradicated. This unit is great for agriculture, construction sites, food places, festivals and schools.

### FIVE STAR PORTABLE HAND WASHING (COLD WATER)

Five Star Portable Hand Washing stations are ideal for maintaining proper hygiene in areas where hand washing facilities are not available or where a regular water supply isn't located.

Each hand washing station contains two units, back to back. These self contained units carry their own supply of portable water and waste water is also stored within.

### FIVE STAR BRAVO HAND WASHING (WARM WATER)

Five Star Bravo Hand Washing stations provide the ultimate in portable, self contained hand washing facilities. Designed to comply with health department regulations these units are ideal for catering companies, food vendors or VIP events. Each hand washing station contains two units, back to back. These self contained units carry their own supply of portable water and waste water is also stored within.

# FIVE STAR EXECUTIVE TOILETS

**Five Star Executive toilet buildings are designed for high volume use where comfort and quality is a consideration. These units are designed to provide people with higher quality toilet facilities.**

Available in a variety of configurations, Five Star Executive toilets can also be reconfigured to suit different environments such as functions/events and work sites.

Some outstanding features of these units are,

- User-configurable formats (male/female interchangeable)
- Sewer connect or self contained tank operation
- Low flush toilets (500ml of water used per flush)
- Waterless urinals
- Vitreous china hand basins
- Interior and exterior access lighting

## FIVE STAR EXECUTIVE TOILET – 3 PAN MALE/FEMALE

This unit features a total of 3 pans, urinals and hand basins and is 3.6x2.4m in overall size. Utilising low flush technology our Five Star Executive toilets will reduce your water usage and waste disposal charges by up to 40%.

## FIVE STAR EXECUTIVE TOILET – 4 PAN MALE/FEMALE

This unit features a total of 4 pans, urinals and hand basins and is 4.8x2.4m in overall size. Our integrated unique waste tank design incorporates a large storage capacity tank into the floor of every unit. Saving you time and money in onsite setup costs. Simply plug in the water and power (if you require lighting) and your unit is ready for use.

## FIVE STAR EXECUTIVE TOILET – 6 PAN MALE/FEMALE

This unit features a total of 6 pans, urinals and hand basins and is 6.0x2.4m in overall size. A popular choice for many customers this unit features the perfect mix of male/female facilities. Now solar powered with new LED lighting internally and externally.

**HIRE**

## FIVE STAR EXECUTIVE ABLUTIONS

Five Star Executive ablutions are designed to provide quality toilet and showering facilities all within the one transportable unit. High capacity hot water units and integrated waste storage tanks are standard to all Five Star Executive ablutions.

Available in a variety of configurations, Five Star Executive ablutions can provide toilet and shower facilities to suit any situation.

Some outstanding features of these units are,

- High capacity LPG Gas Instant hot water units
- Sewer connect or self contained tank operation
- Low flush toilets (500ml of water used per flush)
- Waterless urinals
- Vitreous china hand basins
- Interior and exterior access lighting

### FIVE STAR DUO TOILET & SHOWER

This unit features one single toilet and shower cubicle in a compact and easily towable format. Designed for situations where both a toilet and shower are needed and designed to be low cost. These units are easy to manoeuvre and are quick to setup.

### FIVE STAR EXECUTIVE ABLUTION – 3.6x2.4M

This unit features a single shower, toilet and urinal with hand basin. Typically a single sex unit only it also includes it's own waste storage tank integrated into the floor structure which allows it to be self sufficient if a sewer point is not available.

### FIVE STAR EXECUTIVE ABLUTION – 6x2.4M

A popular unit in a Male/Female format which is re-configurable through our smart design with a lockable dividing door panel between both sections of the building. Designed for any environment where toilet and shower facilities are required in one compact unit.

## FIVE STAR STREAMLINE TOILETS

**Five Star Streamline toilets are compact in design and have been engineered to ensure they can handle a large amount of usage in any type of environment. A popular choice by many customers for large outdoor events.**

Our Five Star Streamline product comes in two versions,

- Mini-Streamline - 2 pan unisex unit
- Streamline - 16 pan unisex unit

Common features of our Five Star Streamline toilets are,

- Integrated waste holding tanks or sewer connect option
- Low, one step access into the units
- Low flush toilets (500ml of water per flush)

### FIVE STAR MINI-STREAMLINE TOILET - 2 PAN

Five Star Mini-Streamline toilet buildings feature a 2x1.5m overall foot print with two fully self contained toilet cubicles both with their own hand basins.

### FIVE STAR STREAMLINE TOILET - 16 PAN

Five Star Streamline toilets are designed for very high demand use or situations where a large amount of toilets are required. Each Five Star Streamline toilet features 16 unisex self contained toilet cubicles. Occupying a very small foot print of only 6m x 2.4m and an easy one truck delivery for 16 toilets makes these units a cost effective option for many situations.

**HIRE**

## FIVE STAR STANDING ROOM ONLY

Five Star Standing Room Only (SRO's for short) are our unique range of portable mens urinal buildings. We aptly named them Standing Room Only as we know men prefer these units and really just like to get in and out as quickly as possible. SRO units work extremely well at turning over large volumes of guests very quickly. Ideal for situations where alcohol is being consumed.

Some of the benefits of our Five Star Standing Room Only units are,

- Waterless urinals (producing less waste, costing less to service)
- High waste capacity as excess water is not filling the waste tank
- Allows full compliance with Health Department regulations

### FIVE STAR KROS URINALS (4 PERSON)

Five Star KROS urinals are free-standing urinals designed for placement virtually anywhere. Recently featured in outdoor urinal trials throughout the CBD of Perth these units have proven extremely popular with their users.

### FIVE STAR SRO BUILDING (16 URINALS)

A larger version of our popular portable SRO unit, the Five Star SRO mens urinal building is a transportable building 6m x 2.4m in size which contains 16 waterless urinals and 2 hand basins. Designed with doors to either end of the building this unit allows fast flow through of traffic.

### THE PEE PANEL

The Pee Panel is a free-standing mens urinal designed to sit against most types of temporary fencing panels and is ideal for large events/functions. Moulded carry handles and provision for forklifting make these units very easy to transport.

## ONSITE ATTENDANTS

Clean and hygienic toilets maintained by our onsite attendants for the duration of your event. Instant Toilets & Showers can provide you with onsite attendants to maintain our products to the highest standards of cleanliness and hygiene for the duration of your event.

Onsite attendants are available for any duration that you require however a minimum charge of 3 hours applies. When you engage the services of our onsite attendants, Instant Toilets & Showers will provide all necessary cleaning equipment and consumables to ensure your guests' sanitation needs are met.

Providing an onsite attendant at your next event will impress your guests and show them that you care about their needs. Take your event to the next level with an onsite attendant from Instant Toilets & Showers.

## BLACK TIE-ONSITE ATTENDANTS

Providing the ultimate in luxury to your guests with our VIP Six Star toilets requires something a little more than just a regular onsite attendant. Our Black Tie Onsite Attendants will further enhance the image of your event for your guests. Offering the absolute best in attendance to your guests needs is our aim.

## WASTE REMOVAL & TOILET SERVICING

Instant Toilets & Showers operates its own fleet of liquid waste removal vehicles as part of our toilet hire service. We can provide bulk waste removal from waste tanks at a frequency that suits your needs. Our fleet is available 24 hours a day, 7 days a week. We can also arrange the servicing of portable toilets on a regular basis. Whether you hire our own toilets or provide your own toilet(s) our servicing facilities are available at anytime.

HIRE

**Instant Products Hire provides a complete accommodation service for outdoor events, exhibitions, concerts, sporting fixtures and hospitality. We offer a wide range of event hire accommodation units.**

## TICKET BOOTHS

Does your event require ticket selling facilities? Or maybe you need an information kiosk?

Ticket booths are available in two standard sizes:

**3 window** (3x2.4m)

**6 window** (6x2.4m)

## KIOSKS

Our Kiosks are an open fronted building with a retractable awning to provide comfort to your guests. With a 4.8x2.4m foot print this unit is easily transported and manoeuvred into position onsite.

### **This unit features:**

- Reverse cycle Air-conditioning
- Conventional container style lifting points incorporated into the floor and roof. Allowing easy transport and tie down on trucks, trains, barges or ships.
- Forklift pockets incorporated into the floor base

## COMMENTARY BOOTHS

Unique, entirely glass fronted buildings which provide the ultimate in vision for commentary at any type of event.

With a 6x2.4m foot print this unit is easily transported and manoeuvred into position onsite.

### **These unit features:**

- Reverse cycle Air-conditioning
- Conventional container style lifting points incorporated into the floor and roof
- Allowing easy transport and tie down on trucks, trains, barges or ships.
- Forklift pockets incorporated into the floor base

## TRANSPORTABLES

Through our parent company Instant Products Hire we can provide you with a complete solution to your portable building needs. We have available in our hire fleet:

- Site Offices
- Crib Rooms
- Accommodation Units

# POLYJOHN PORTABLE TOILETS & SHOWERS RANGE

## PORTABLE TOILETS

### POLYJOHN FLEET - FRESH WATER FLUSH PORTABLE TOILET

The PolyJohn Fleet Series sets the standard for high quality portable restrooms. As a self-contained chemical toilet this unit can be located virtually anywhere. Sleek exterior and interior styling make this unit the perfect choice for any environment where appearance and style is a factor. The Fleet series toilets also boast more room than similar units on the market, approximately 24% more room.

### POLYJOHN FLEET SEWER CONNECT PORTABLE TOILET

The PolyJohn Fleet Series sewer connect toilet provides a mains connected toilet in a portable format. Providing the facilities similar to that found in any permanent setup often pleases many customers. The Fleet Sewer connect features a vitreous china toilet suite and hand basin internally. This unit requires connection to mains pressure water and a sewer point to operate.

### POLYJOHN PNJ3 FRESH WATER FLUSH PORTABLE TOILET

The traditional workhorse of the portable toilet industry which has greater capacity than its predecessor, easy to clean and an overall increase in strength and durability. The door opening has been increased in height and a heat treated aluminium doorjamb for strength and rigidity. The toilet flushing system is operated via a foot pump recessed into the tank.

### POLYJOHN ADA - DISABLED ACCESSIBLE PORTABLE TOILET

The PolyJohn ADA (Disabled accessible) portable toilet is architecturally certified as complying with ADA requirements. A Hexagonal floor at ground level with no step allows for easy wheel chair access in and out of the unit. Support Bars are included inside the toilet for both visually and physically impaired persons. The space inside provides sufficient room for a wheel chair to turn 360 degrees. There is also the ability to install a baby change facility if required.

### POLYJOHN COMFORT INN - DISABLED ACCESSIBLE TOILET

Designed for easy access with its 1/2" thick floor which is at ground level made from a strong durable Roto-moulded foundation. The space inside provides sufficient room for a wheel chair. The unit provides easy access for patrons with an oversized door opening and spacious interior. Three grab bars are mounted on the inside walls to ease mobility for the user. This unit comes with a self-contained hand washing station which is either hand or foot pump operated.

# POLYJOHN PORTABLE TOILETS & SHOWERS RANGE

## POLYJOHN PORTABLE SHOWERS

### POLYJOHN FLEET PORTABLE SHOWER

The Polyjohn Fleet shower cabin (shell only) offers you a spacious portable shower with a grated floor for excellent drainage which is connected to a 2" drain port on the rear of the unit. Internally the unit features a chrome curtain rod and curtain, coat hooks and mirror to the rear of the door. Pre-fitted with a hand-shower rose, cold and hot water taps the unit is ready for connection to an external hot water unit (optional). We can provide electric storage, electric instant or gas instant hot water units complete to accompany the unit for a complete setup if required."

## POLYJOHN HANDWASHING STATIONS

### POLYJOHN APPLAUSE - HANDWASHING STATION

This unique hands-free twin sink design converts easily to a four-sink island by placing two units back to back. Large sink bowls, rubbish bag holders and a service tower with two paper towel dispensers and a single soap dispenser enhance this user friendly design. The entire top of the unit is hinged and opens to gain access to the Flexible inner grey-water tank bag and fresh water storage area for re-filling.

### POLYJOHN BRAVO - HANDWASHING STATION

The Polyjohn Bravo hand washing station has two large sink basins for washing hands and arms up to the elbow. This unit will fit inside most portable toilets for easy transport.

### POLYJOHN FOUR PERSON HAND WASHING STATION

The Polyjohn Four person hand washing station is a compact multi user sink system with hands free foot pump operation. This unit is compact and easy to handle and can be fitted into small areas.

### POLYJOHN SANI-STAND

The Sani-Stand is a free-standing hand sanitizing unit with four dispensers on it. The Sani-Stand provides enough foam to sanitize the hands of over 5,300 individuals. Foam spreads to cover hands and kill germs effectively with a 99% success rate, with E-coli and salmonella being eradicated. This unit is great for agriculture, construction sites, food places, festivals and schools.

### POLYJOHN SINK ON WHEELS

The Polyjohn Sink on Wheels is an easily transportable sink with built in handles and lightweight rubber tread wheels. Fitted with a soap and towel dispenser along with an easy to operate foot pump it dispenses up to 1024 single splashes of fresh water.

portables!***

VACU-FRESH PUMP EXHAUST DEODORIZER SYSTEM

# VACU-FRESH

## Pump Exhaust Deodorizer System

*also available*

### **Vacu-Fresh® Pump Exhaust Deodorizer System**

#### **Eliminate odors from sewage pump truck vacuum pumps**

The Vacu-Fresh® Vacuum Pump Exhaust Deodorizer System eliminates odors coming from the vacuum pump on sewage pump trucks. It consists of a filtration tank which is installed in the exhaust line after the pump and a special deodorizing liquid which is added to the filtration tank. The tank contains special baffles which assure the foul smelling exhaust air comes in contact with the deodorizing liquid, which then captures the odor, and the exhaust exits the filter tank odor-free.

### **Scented Vacuum Pump Oil**

#### **Eliminate Obnoxious Exhaust Odours**

An effective solution when used with or without the Vacu-Fresh® system to eliminate offensive exhaust fumes.
